Preserving your most cherished memories...

is our passion at Ki'i Honu Images. Our philosophy is simple: follow your heart. We do not believe we create images. We are simply witnesses to God's momentary gifts as they unfold at a wedding or special event. Our hearts seek those special moments as they present themselves, and we are there to capture those images with our cameras.

We tend to feel the moments more than just seeing them to bring out the inner beauty of the participants. And the beauty is all around us, even in the most simplest things.

We believe if you shoot with your heart, it becomes your own; something others may try to copy but they cannot capture the same essence. We are not photojournalists in the traditional sense. We do interact with our brides and grooms to get to know their inner beauty and how they interact with each other. And to capture those moments, tells the story of the special day that is remembered for years to come.

But most of all, we thank Jesus for being our Lord and Savior. And it is by His grace that we are allowed to do what we do, capturing God's beautiful momentary gifts with our cameras on your wedding day.
